Rick Lester reiterated that it is important that we noted the concern that if there are three property owners on the Pat & Ken Forrest property using the road in the future, it would be considered a public road not a private driveway. As the CAO/Clerk stated in the minutes, if new severances are granted in the future, we would need to clearly state condition of approval for the severance.

The Secretary was asked to change the date on Item 18 to read "January 09, 2013".

He feels that there is an issue with the Gould property. Council has agreed to change the drainage ditch. Mackie McLaren has talked to Beatty Gould but due to the time of year we can’t do anything this year. Rod Eady hasn’t been able to get in touch with Grant Crozier (Curtis Crozier) but he will follow up on this to see if they support shutting off one entrance to their pit. **After discussion, the Committee suggested that we re-visit this property/issue in the spring to assess drainage during the spring run-off.**
