STAY AWAY FROM WILD PARSNIP!

Wild Parsnip is a plant that stands 1 m to 1.5 m (4 to 5 feet) in height and has a large yellowish/green umbrella-shaped flower head and is found in large numbers along the roadside ditches and our CN Trail. Treat this plant with extreme caution. The sap will cause severe burns and could cause blindness if the sap gets in the eyes. Check out www.invadingspecies.com for information.
