the Community Centre*

## Emerald Ash Borer

The Emerald Ash Borer has been identified in a few small Ash trees in the Township. Information on the insect, the damage it causes and how to limit it's infestation to other areas of the Township and the County is available on our website [www.hortontownship.ca](http://www.hortontownship.ca). You are urged to inform yourself on how to identify if your Ash trees are affected and how you can keep the insect from spreading.
